(This is a [People's Pick Winner](#), too!) Designed by Elaina Myers and Susanna Samaniego, this open-air living space features an easy-breezy feel and plenty of texture via rattan furniture, block-printed fabrics and a wood-slat ceiling. Forming the heart of a Balinese boutique hotel, the spacious pavillion provides a place for guests to gather for meals, enjoy a cocktail or just relax. Browse the photos below to see how Elaina and Susanna incorporated global patterns into their tropical design.
