with views

## Bali Beauty

**Location:** Seminyak, Bali

**Lowdown:** Noku Beach House is the ultra-glam star of Seminyak's exclusive beachfront. With six bedrooms, an army of six-star staff including a gourmet chef and your own personal maitre'd, this villa is all about maximising your holiday pleasure.

The centrepiece of the property is a sparkling 27-metre pool, which is flanked by an enormous *balé* with decks and covered terraces, a spa with plunge pool, vast tropical gardens and a fabulous ocean-front tennis court. Rooftop gardens overlook the ocean and provide a gorgeous hideaway for sundowners.

For meals, you can choose from an elegant indoor dining area, outdoor dining under a covered terrace, a rooftop terrace, or two raised oceanfront decks with long views down the beach to the cliffs of Jimbaran Bay.

## Island Time

**Location:** 50km south of Singapore

**Lowdown:** Turn your back on busy city life and enjoy an escape to an upscale private island resort for a weekend or more. Telunas Private Island is one of two properties operated by Telunas Resorts, a family-owned boutique resort brand with an emphasis on being environmentally friendly and socially responsible.

Currently ranked the number-one hotel in the Riau Archipelago (including Bintan and Batam) on TripAdvisor, Telunas Private Island is especially popular among expats living in Singapore. The 15 overwater two-bedroom Sea Villas are all built from local timber and with décor inspired by the local culture, and come with children's lofts and separate sitting rooms.

The resort has a one-of-a-kind overwater spa, a daily kids' club, complimentary daily social activities, à la carte dining experiences featuring Western and Asian fare, access to neighbouring Telunas Beach Resort public facilities, and more.
