📅 June 2, 2025

Nestled on the edge of a silver birch forest with sweeping views of Mt. Yotei and the Niseko Valley, the exquisite Rinzan Chalet (<https://www.elitehavens.com/rinzan-chalet-chalet/soga-niseko-japan.aspx>) is now available for exclusive bookings through Elite Havens (<https://www.elitehavens.com/>), Asia's premier luxury villa management and marketing company. Whether it be to book ahead for the 2026 ski season or as Niseko's snow melts away, a quieter, more enchanting side of Japan awakens in the summertime. Gone are the ski crowds — in their place, rolling green hills, flower-filled meadows, and the soft hush of nature in full bloom. This is the secret season. And the best way to experience it? From the comfort of Elite Havens' Rinzan chalet — your own luxury base to explore the wild, offbeat beauty of Niseko in summer. Think hiking through wildflower trails, soaking in an onsen under the stars, and discovering local summer festivals that most

travellers never see.

Designed with modern alpine aesthetics and built in 2020, Rinzan Chalet offers the perfect balance of elegance, comfort, and accessibility for discerning travellers seeking a refined mountain escape. Located just ten minutes from both **Hirafu** and **Niseko Village** ski resorts, this stylish three-bedroom property is ideal for families or small groups looking to explore the region in elevated comfort.
