FREQUENT FLYER

Stephanie Chai, the Luxe Nomad

How important is frequent travel to your world? It's the reason I have made so many friends across borders and become the person I am today.

There's no better education than experiencing the world first-hand. It's what inspired me to start The Luxe Nomad.

What are three things you must pack on a trip? Ren's day cream for sensitive skin, Diptyque soothing lip balm, and my all-essential MacBook Air.

What defines a truly luxurious escape? A private villa with an ocean view, stylish décor and luxurious bed linen.

What is your favourite part of travelling? There's a part of me that loves the romanticism of running away and being a stranger in a new country.

What's your favourite home away from home? The Istana, one of the most sought-after villas in Bali. It has incredible views of the ocean, your own private pool and a 24/7 butler and chef.

Stephanie
Chai

What's your most memorable recent holiday memory?

Travelling island-style through the streets of Seminyak on the back of a motorcycle taxi alongside 30 friends as we headed for a New Year's Eve party at the W Retreat & Spa.

Did one particular experience inspire you to launch the Luxe Nomad? When I was younger I modelled, and I travelled a lot throughout Asia. I met a lot of dynamic people who were always on the go. I saw a niche in the market for a well-curated travel site offering travellers dream villas, hotels and resorts. *The Luxe Nomad is a membership service that offers discounted stays at hotels and villas across Asia.* theluxenomad.com
